

The Waterfall Venue

August 15th 2017

One venue we have had the pleasure working with many times, is The Waterfall in Claymont, Delaware. We have planned several of weddings at this venue and each time has turned out perfectly. From the staff to the decor, everything is perfect about this venue which is why we chose to highlight it today.

This venue offers two ballrooms and another outdoor space.

- The Grand Ballroom has a 14-foot ceiling with stunning Roman Corinthian marble columns. It also provides stunning crystal chandeliers throughout the room and a 1,100SF marble dance floor. This room can hold up to 500 guests.
- The Cascade Ballroom has custom arched French doors that open to a 14-foot ceiling and an oval dance floor. This space holds up to 325 guests.
- The outdoor space consists of beautifully landscaped gardens; marble water fountains columns, a gazebo and a bridge. When you leave the outside area, you are lead into the routunda (this space features a handmade blown-glass chandelier). Past the routunda is a cocktail room that features 18-foot ceilings, an endless skylight and a glowing onyx stone wall. Between these three spaces (outside, routunda and the cocktail room) it can hold up to 500 guests.

Below are two weddings we planned at the beautiful Waterfall venue. ENJOY!
